

Dear Parent:

Your child will soon be participating in Delta Dental of Tennessee's "Water's Cool at School" educational program. This program is designed to teach children the importance of choosing healthier drink options to preserve and strengthen their oral and physical health.

The lessons use written and activity aids. As a parent, you play an important role in helping your child develop healthy habits. We will be sending a "Water Chart" home so your child can keep track of their healthy drinking habits. We will also be sending home an "Apps and Challenges" handout that can serve as a great resource to encourage more water drinking at home.

We appreciate your support of this unique program and wish you and your family a lifetime of healthy smiles!

Sincerely,

Delta Dental of Tennessee
